

always on call

Flexible security solutions from your single source supplier.

- We offer a full line of security and intrusion products to meet your security needs.
- Troy offers a full-featured security system that uses advanced technology for burglary, fire and environmental detection.
- A flexible security system that is both easy to install and simple to use. With eight partitions and up to 48 zones which can handle big or small commercial and residential security needs.
- Conduct quick and easy on-site programming with alphanumeric keypads and a menu-driven text interface.
- We can inspect and test intrusion devices at the same time as your annual fire alarm inspection, saving you time and money.
- Fine tune your security application by having Troy adjust device parameters like capture range and viewing angles of PIR motion detectors.
- Intrusion detection can be monitored via our central monitoring services.
