

THERE'S SOMETHING NEW COMING DOWN THE PIPE.

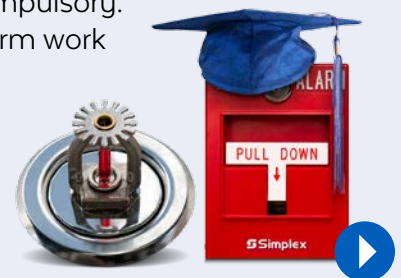

Sprinkler and Fire Protection installers must be certified by the Ontario College of Trades.

www.collegeoftrades.ca/sprinkler-and-fire-protection-installer-classification-change

The Sprinkler and Fire Protection Installer trade has been reclassified as compulsory. On the effective date, Sprinkler and Fire Protection installers can only perform work legally if they:

- are members in good standing of the College of Trades
- have a valid Certificate of Qualification

Trained to be the best

All Troy Sprinkler Fitters are hired through the **United Association of Plumbers & Pipefitters** and are required to attend trade school at prescribed intervals throughout their apprenticeship program.

Training is governed by a National Joint Training and Apprenticeship Committee and throughout their apprentice training they are provided with one-on-one instruction and coaching by a certified Journeyman Fitter. All fitters must meet the *Canadian Standards of Excellence* as governed by the **UA** and the **Canadian Automatic Sprinkler**

Association. Every sprinkler inspector must have a *Certificate of Qualification for Sprinkler Fitters*.

These positions are held by extremely experienced fitters who have been in the trade for many years and have been exposed to all types of systems and building configurations. They understand the nuances of working with complex construction schedules and the importance of meeting all deadlines.

Troy Life & Fire Safety Ltd. is committed to ensuring safe working conditions, equipment, and work

sites, and we promote employee involvement and accountability in preventing and eliminating hazardous conditions and the risk of injury. The health and safety of our employees and the public is our priority at all stages of every operation.

Our insurability, financial strength, industry experience and technical capacity reduce performance risk and make us a safe, strategic choice for all Sprinkler and Fire Protection installations.
